PROFESSIONAL EXPERIENCE

Switchmode Power Supplies Pty Ltd Electronics Engineer Trainee

Jun. 2026 - Present

- Maintenance, testing and repair of low- and high-voltage power supplies and equipment.

UNSW Electrical Engineering and Telecommunications Society President

Sep. 2024 - Jan. 2026

- Managed a team of 50+ students working with faculty, industry and alumni.
- Delivered 100+ events in 2025, achieving 2.5 million views and 4,000 hours of course support.

UNSW Casual Academic Senior Lab Demonstrator

Dec. 2023 - Present

- Teaching, assessment and practical workshops across ELEC1111, ELEC2133, ELEC3106, ELEC3117, ELEC4123, DESN1000 and DESN2000.

UNSW Deans Engineering Unit Student Ambassador

Sep. 2023 - Present

- Advises prospective students and supports engineering outreach events, registration and guest logistics.

EDUCATION

University of New South Wales

2023 - 2027

Bachelor of Electrical Engineering (Honours) / Master of Electrical Engineering

- Coursework across microelectronics, electrical systems, analogue and digital circuits, programming and networks.

SELECTED PROJECTS

UNSW Skylabs

Aug. 2025 - Present

Avionics & Payload Team Lead

- Designed, built and tested ESP32-based telemetry hardware integrating GNSS, IMU, differential-pressure, atmospheric, temperature, humidity and strain sensing, plus ESC interfacing.
- Represented UNSW at the AIAA Design/Build/Fly competition in Wichita, Kansas.

rUNSWift

Dec. 2024 - Present

Behaviours / Hardware Team Member

- Develops and tests Python/C++ ROS2 software for NAO V5/6 and Booster K1 humanoid robots in RoboCup's Standard Platform League (SPL).
- Prepared and led the Sydney team at RoboCup 2025 in Salvador, Brazil.

LoRa Talkie / Dash / Metroboard

Selected work

Personal embedded-systems projects

- LoRa Morse-code walkie-talkie with a custom C++ GUI; ESP32 safe-driving detector with sensing, audio, display, battery management and custom housing; live Sydney rail indicator with 290+ LEDs, Wi-Fi and TfNSW GTFS real-time data.

SKILLS AND RECOGNITION

Technical
C, C++, Python, Assembly, KiCad, LTspice, MATLAB, Simulink, ROS2, PCB design, embedded systems, RF/GNSS, electronics testing and repair

Recognition
Australian Defence Force Future Innovators Award (2020); City of Ryde Young Volunteer of the Year nominee (2022); Duke of Edinburgh Bronze
